Revised: 5/14

This medical history form is designed to evaluate the medical and orthopaedic conditions of an athlete. It includes sections for family medical history, athlete's medical history, and general medical examination. The form requires signatures and dates from various parties to ensure compliance with medical and legal standards. The athlete's details, medical history, and signs of any conditions that require further evaluation are documented. The form is to be completed annually and kept on file with the school and subject to inspection by the Rules Compliance Team.
